Module: Starting Out Course: Introduction To Email 1 (Computer Device) Lesson: 4

1.1 Opening A Message And Replying

Script: The first thing that Amy sees when she opens her account is the Inbox. The Inbox is where all of her messages are received, and where she will be able to manage all of her messages.

Each email will list the name of the sender, the subject of the message, a preview of the message, and finally, the date the message was sent.

The newest emails will always be at the top of the Inbox.

1.2 Opening A New Email

Script: Amy sees that she has a new email from Sandy, her best friend. She clicks on the email to open it and reads Sandy's message.
